true value
Twin method
vector form
oracle (fitted model)
oracle (true generator)
A
true σ_{bio} rises from 1.0 to 3.5 h
$\hat{\sigma}_{bio}$ (h)
time after dexamethasone (h)
B
true σ_{bio} constant, 2.24 h
time after dexamethasone (h)
C
simulation: ramp
fitted slope of $\hat{\sigma}_{bio}$ (h per h)
Twin
vector
oracle fitted
oracle true
D
simulation: constant
open markers: oracles
black bar: true value
E
real data
cross: real estimate
